A close-up photograph of a carpet corner. The carpet has a pattern of large, irregular patches in shades of tan, beige, and light brown. A prominent, dark, irregular stain is visible in the upper right corner of the image, extending from the edge of the carpet. The stain appears to be a mix of dark brown and black, with some lighter, possibly dried, areas. The texture of the carpet fibers is visible, and the stain seems to be deeply embedded in the pile.
